- Stage Technician Set up stages and audio equipment. (Producciones Multiple S.L.)

EDUCATION

Data Analytics

Ironhack / Madrid / 2024

During my data analysis bootcamp, I developed a strong foundation in Python, SQL, Tableau, and machine learning. I gained hands-on experience in data cleaning, exploration, and visualization, and learned to implement machine learning algorithms for predictive modeling. I also utilized Git for version control and collaborated in team projects, ensuring efficient workflows and tracking of code changes. The bootcamp allowed me to work with real-world

datasets, honing my analytical skills and equipping me with the tools necessary for tackling complex data-driven problems.

Bachelor of Science in Biology, Biotechnology Specialization
Complutense University of Madrid / Madrid / 2017

Certificate of Higher Education (HNC) in Sound Engineering
Puerta Bonita Professional School / Madrid / 2020
